Homework feedback: R (*Anna*)

Your tasks for next week

1) install shiny

2) send me your github username/email-address via email

3) upload your material from this session to our repository

4) Homework for git and github

5) Homework for R

6) if you are going to present an illusion:

   ▶ send an email to **all** team members (including me) as soon as
     you have decided on a topic

7) prepare your talk (presentation / tutorial)

   ▶ make sure you can tick your check boxes in section 1.1 of
     the syllabus sheet
